

Ageless Renewal Serum™

| Anti-Aging Treatment featuring Repair-Plex™ |

Are you ready to look years younger?

You can't turn back time, but you can rediscover your skin's youthful appearance and vitality with Ageless Renewal Serum.

What should I know about Ageless Renewal Serum?

- ▶ Ageless Renewal Serum is the newest development in skin care offered by Isagenix® that helps diminish the appearance of deep lines and wrinkles while firming, toning, balancing and brightening the skin for a healthy and luminous glow.
- ▶ Contains a high concentration of naturally-derived epidermal growth factors to stimulate the body's natural ability to replenish skin.
- ▶ This bio-technically advanced treatment features Repair-Plex™, a cutting-edge complex containing specially-formulated ingredients and polypeptides, also known as epidermal growth factors or cytokines, that work to support the skin's natural renewal process. Repair-Plex™ supports your skin's natural renewing, replenishing, and revitalizing processes to create a visibly lifted effect to help you look years younger.
- ▶ Expect younger looking skin in as few as 30-days, or your money back.

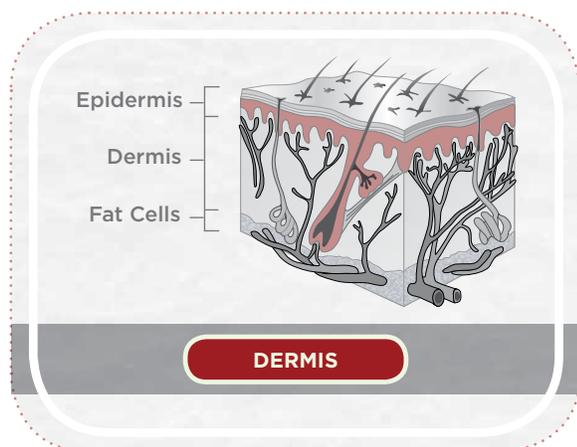

How can I benefit from using Ageless Renewal Serum?

- ▶ Unlike some serums and treatments that use harsh, skin-irritating chemicals and may require downtime before skin looks healthier, Ageless Renewal Serum is a naturally-derived formula that works in harmony with the body to help support the skin's natural ability to produce collagen and other proteins. The result is skin that feels firmer, more elastic, moisturized and a reduction in the appearance of deep lines and wrinkles.
- ▶ The powerful polypeptides found in Ageless Renewal Serum are vital to forming the framework that keeps skin feeling firm and toned. These polypeptides support the skin's natural renewal process to combat the signs of aging by helping the skin "remember" what it has "forgotten" with age.
- ▶ Ageless Renewal Serum is power-packed with age-defying antioxidants and other vital nutrients that protect and support the skin, leaving you with a radiant, ageless glow.

ISAGENIX®

How does Ageless Renewal Serum™ compare to the competition?

The growth factors in Ageless Renewal Serum are actually activating proteins, which penetrate the skin all the way to the dermal layer. Many products fail to reach this deeper layer, instead staying on the surface of the skin or the epidermis.

Ageless Renewal Serum Frequently Asked Questions

▶ OTHER SERUMS CONTAIN EPIDERMAL GROWTH FACTORS. WHAT MAKES AGELESS RENEWAL SERUM DIFFERENT?

Ageless Renewal Serum contains a high concentration of naturally-derived epidermal growth factors—most serums don't contain this many. Our serum also contains soluble collagen, antioxidants and matrix proteins found in young, healthy skin that improve skin texture and the appearance of wrinkle depth and elasticity.

▶ HOW DO THE OTHER INGREDIENTS IN AGELESS RENEWAL SERUM WORK?

The potent antioxidants in this formula also protect against daily exposure to environmental stresses, such as pollutants, that form free radicals. Vital nutrients like glycerin and allantoin help protect the surface of your skin by locking in the polypeptides for a complexion that appears healthier and more youthful.

▶ HOW LONG UNTIL I SEE RESULTS?

We're so confident you'll see a noticeable change in as little as 30 days, we're offering a 30 day, 100% money-back guarantee.

▶ CAN I USE AGELESS RENEWAL SERUM WITH ISADERMIX®?

Absolutely. In fact, to boost the anti-aging benefits of Ageless Renewal Serum, we suggest you combine it with these quality products from our IsaDermix skincare line.

- IsaDermix Gentle Cleansing Gel™
- IsaDermix Intensive Microderm with Natural Sea Mineral Crystals™
- IsaDermix Antioxidant C Serum with CoQ10™
- IsaDermix Age-Defying Eye Cream
- IsaDermix Moisture-Rich Day Cream
- IsaDermix Intensive Renewal Night Cream

▶ CAN I WEAR MAKEUP WITH AGELESS RENEWAL SERUM?

Yes. Ageless Renewal Serum is non-comedogenic, meaning it won't clog pores. Simply apply Ageless Renewal Serum to your face and wait five minutes before putting on your makeup.
