

Traditional Diet vs. Cleansing

*One of the ways the liver deals with impurities is to increase body fat to enfold these impurities to protect the body from their influence. Diets are not successful for long term weight loss because they don't address the need to cleanse the body of impurities.

Traditional Diet

Fat stored to protect from impurities*

Smaller body means increased percentage of impurities*

Body senses increased level of impurities* and goes into emergency fat production - REBOUND!

Cleansing and Replenishing

Fat stored to protect from impurities*

Impurities* are released, so body sheds fat

Better overall health with less fat and more lean muscle

Shed Pounds Without The Rebound !

Cleansing is a safe, healthy, and natural way to achieve a healthier, leaner body.

Get Started Today !

Weight-loss results may vary. In a recent study, participants averaged a weight loss of 7 pounds at the completion of their first Isagenix® 9 Day Program. Always consult your physician before making any dietary changes or starting any nutrition, weight or exercise program.
