

How to Earn with Adaptogen Elixir™

These examples depicted explain potential earnings in U.S. dollars by a new Isagenix Independent Associate who completes the described tasks within the described timeframes and is not typical. The ability to earn income under the Isagenix Team Compensation Plan depends on many factors, including an individual Associate's business, social, and sales skills; personal ambition and activity; availability of time and financial resources; and access to large network of family, friends, and business contacts. Isagenix cannot and does not guarantee any particular level of earnings. Even Associates who dedicate a significant amount of time, effort, and personal funds may not achieve a meaningful level of success. For average earnings, refer to [IsagenixEarnings.com](https://www.isagenix.com/earnings).
