

## Team Isagenix Brings Home the Gold (And Bronze)

By Dan and Shelley Morgado

As if it weren't enough to have John Gray, PhD, Jack Canfield, and a Medical Advisory Board endorsing our life-changing program - now we are joined by Mr. **"Bodies in Motion"** himself, **Gilad!** What an incredible surprise!

Shelley Morgado

Gilad – Mr. "Bodies in Motion"

Dan Morgado

Isagenix is dramatically improving the health and vitality of so many people. Our friend, Steve Van Wieringen, started running and cycling again after 12 years of inactivity. He not only lost 22 pounds in 30-days, he said his energy level is through the roof and his cycling and running times are phenomenal.

His 26-year-old daughter, Danelle, has had amazing results too. After cleansing with Isagenix, Danelle lost 18 pounds and went from a size 11 to a size 9 in one month. She told me she hadn't been able to fit into a size 9 since her Junior year in High School! Danelle said she loves how easy it is to maintain her weight on the maintenance program. She is happier, more energetic and excited about her ability to train for runs and Triathlons.

On July 4th, Shelley and I joined Steve and Danelle and formed **Team Isagenix**. We entered the Freedom Fest 10K road race in Tacoma, Washington and we're happy to report all four members of **Team Isagenix** (photo below) brought home the medals! Shelley took the Gold as the first woman finisher! I won Gold in my division and Steve and Danelle each placed 3rd to bring home 2 Bronze medals.

Isagenix has given us our youth and vitality back and we can't stop telling everyone how thankful our bodies are after the cleansing.

People don't realize the accumulative effects toxic matter has on our body's vital organs. After a true liver cleanse with Isagenix, we not only eliminated much of the harmful chemicals that our bodies had stored away in layers of fat and mucus - we fortified our systems with an abundance of mineral-rich nutrients and essential protein. We're healthier than we have been in 15 years - and that's why we're setting personal bests.

We won't stop telling people about this truly unique superfood and cleansing system. We truly have discovered Gold !

With sincere appreciation,

**Dan & Shelley Morgado**
